Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. 9 Seasonality of results

The Group's income consists of rental and investment income. Rental income is not significantly affected by any seasonal impact as it depends on annual lease contracts which are recognised in the income statement on a straight-line method and in accordance with different terms of these contracts. In addition, there is limited fluctuation on the rent rates where the Group's investment properties are located. Investment income depends on market conditions, investment activities of the Group and declaration of profit by investee companies, which are of a seasonal nature. Accordingly, results of investment income for the period ended March 31, 2021 are not comparable to those relating to the comparative period and are not indicative of the results that might be expected for the year ending December 31, 2021.
